- Owners of agricultural properties who are *bona fide* farmers.

The Municipal Manager must annually table in the Council:

- a list of all exemptions, reductions and rebates granted by the municipality during the previous financial year; and
- A statement reflecting the income which the municipality has forgone during the previous financial year by way of such exemption, reductions and rebates, exclusions referred to in the Act and the phasing-in discount granted in terms of Section 21.

All exemptions, reductions and rebates projected for a financial year must be reflected in the municipality's annual budget for that year as income on the revenue side and expenditure on the expenditure side.

### **13. CONSTITUTIONALLY IMPERMISSIBLE RATES**

The municipality may not exercise its power to levy rates on property in a manner that materially and unreasonably prejudices national economic policies, economic activities across its boundaries, or the national mobility of goods, services, capital and labour.

### **14. OTHER IMPERMISSIBLE RATES**

A municipality may not levy a rate on:

- the first 30% of the market value of public service infrastructure;
- those parts of a special nature reserve, national park or nature reserve or national botanical garden which are not developed or used for commercial, business, agricultural or residential purposes;
- mineral rights;
- property belonging to a land reform beneficiary or his or her heirs, provided that this exclusion lapses 10 (ten) years from the date on which such beneficiary's title was registered in the office of the registrar of deeds;
- the first R15,000 of the market value of a property assigned in the valuation roll or supplementary valuation roll to a category determined by the municipality for residential purposes or for properties used for multiple purposes, provided one or more components of the property are used for residential purposes;
- A property registered in the name of and used primarily as a place of public worship by a religious community, including an official residence registered in the name of that community which is occupied by an office bearer of that community and who officiates at services at that place of workshop.

## **15. EXEMPTION OF MUNICIPALITIES FROM PROVISIONS OF SECTION 17**

A municipality may apply in writing to the Minister for Provincial and Local Government to be exempted from applying the exemptions granted in respect of the first 30% of the market value of public infrastructure, the exemptions on nature reserves, national parks and national botanical gardens, the exemption on property belonging to land beneficiaries, and the exemption applying to the first R15,000 of the market value of residential and mixed use property, if the municipality can demonstrate that such exclusions are compromising or impeding its ability or right to exercise its powers or perform its functions within the meaning of the Constitution.

## **16. IMPERMISSIBLE DIFFERENTIATION**

A municipality may not levy:

- different rates on residential properties (except where transitional arrangements apply or where some of the properties are newly ratable);
- a rate on non-residential properties that exceeds a prescribed ratio to the rate on residential properties;
- rates which unreasonably discriminate between categories of non-residential properties; and
- Additional rates, except as provided for in Section 18.

## **17. LIMITS ON ANNUAL INCREASES OF RATES**

On written application by the municipality, and on good cause shown, the municipality may apply for exemption from the upper limit set by the Minister of Provincial and Local Government, on the percentage by which rates on properties or a rate on a specific category of properties may be increased.

## **18. COMPULSORY PHASING IN OF CERTAIN RATES**

A rate levied on newly rate able property must be phased in over a period of three financial years. Similarly, a rate levied on property owned by a land reform beneficiary must, after the exclusion period has lapsed, be phased in over a period of three financial years.

A rate levied on a newly rate able property owned and used by organizations conducting specified public benefit activities must be phased in over a period of four financial years.

The phasing in discount on a property must:

- in the first year, be at least 75% of the rate for that year otherwise applicable to that property;
- in the second year, be at least 50% of the rate for that year otherwise applicable to that property, and;
- In the third year, is at least 25% of the rate for that year otherwise applicable to that property.

No rate may be levied during the first year on newly ratable property owned and used by organizations conducting specified public benefit activities. Thereafter the phasing in discount shall apply as for other newly ratable property except that the 75% discount shall apply to the second year, the 50% to the third year, and the 25% to the fourth year.

A rate levied on newly ratable property may not be higher than the rate levied on similar property or categories of property in the municipality.

#### **19. SPECIAL RATING AREAS**

A municipality may by a resolution of its Council determine an area within that municipality as a special rating area, levy an additional rate on property in that area for the purpose of raising funds for improving or upgrading that area, and differentiate between categories of properties when levying such additional rate.

The levying of an additional rate may not be used to reinforce existing inequities in the development of the municipality, and any determination of a special rating area must be consistent with the objectives of the municipality's IDP.

#### **20. PROPERTY RATES PAYABLE BY OWNERS**

A rate levied by a municipality on property must be paid by the owner of the property. Joint owners of a property are jointly and severally liable for the amount due for rates on that property.

In the case of agricultural property owned by more than one owner in undivided shares, the municipality must consider whether in the particular circumstances it would be more appropriate for the municipality to hold any one of the joint owners liable for all rates levied in respect of the agricultural property, or to hold any joint owner only liable for that portion of the rates levied on the property that represent that joint owner's undivided share in the agricultural property.

#### **21. PAYMENT OF RATES ON PROPERTY IN SECTIONAL TITLE SCHEMES**

The rate levied by a municipality on a sectional title unit is payable by the owner of the unit.

The municipality may not recover the rate on such sectional title unit, or any part of such rate, from the body corporate controlling the sectional title scheme, except when the body corporate itself is the owner of any specific sectional title unit.

#### **22. METHOD AND TIME OF PAYMENT**

A municipality must recover a rate on a monthly basis, or annually, as determined by the municipality.

If the rate is payable in a single annual amount, it must be paid on or before a date determined by the municipality. If the rate is payable in installments, it must be paid on or before a date in each period determined by the municipality.

#### **23. ACCOUNTS TO BE FURNISHED**

A municipality must furnish each person liable for the payment of a rate with a written account specifying:

- the amount due for rates payable;
- the date on or before which the amount is payable;
- how the amount was calculated;
- the market value of the property;
- if the property is subject to any compulsory phasing-in discount in terms of Section 17, the amount of the discount, and
- If the property is subject to any additional rate in terms of Section 18, the amount due for additional rates.

The person liable for payment of the rates remains liable for such payment whether or not such person has received a written account from the municipality. If the person concerned has not received a written account, that person must make the necessary enquiries from the municipality.

#### **24. RECOVERY OF RATES IN ARREARS FROM TENANTS AND OCCUPIERS**

If an amount due for rates levied in respect of a property is unpaid by the owner of the property after the date determined for payment by the municipality, the municipality may recover the amount in whole or in part from a tenant or occupier of the property, despite any contractual obligation to the contrary on the tenant or occupier. The municipality may recover an amount only after it has served a written notice on such tenant or occupier.

The amount that the municipality may recover from the tenant or occupier is limited to the amount of the rent or other money due or payable, but not yet paid, by such tenant or occupier to the owner of the property.

#### **25. RECOVERY OF RATES FROM AGENTS**

A municipality may recover the amount due for rates on a property in whole or in part from the agent of the owner, if this is more convenient for the municipality, but only after the municipality has served a written notice on the agent in this regard.

The amount that the municipality may recover from the agent is limited to the amount of any rent or other money received by the agent on behalf of the owner, less any commission due to the agent.

#### **26. GENERAL VALUATION AND PREPARATION OF VALUATION ROLLS**

A municipality intending to levy a rate on property must cause a general valuation to be made of all properties in the municipality, and must prepare a valuation roll of all properties in terms of such valuation.

All ratable properties in a municipal area must be valued during such general valuation, including all properties fully or partially excluded from rates in terms of Section 17 of the present Act. However, if the municipality does not intend to levy rates on its own property, on public service infrastructure owned by a municipal entity, on rights in properties, and on properties in respect of which it is impossible or unreasonably difficult to establish a market value because of legally insecure tenure resulting from past racial discrimination, the municipality is not obliged to value such properties as part of the valuation process.

A municipality may also apply to the Minister for exemption from the obligation to value properties excluded from rates in terms of Section 17 if the municipality can demonstrate that the valuation of such properties is too onerous for it, given its financial and administrative capacity.

Properties which have not been valued, because of any of the foregoing considerations, must nevertheless be included in the valuation roll.

#### **27. GENERAL BASIS OF VALUATION**

The market value of a property is the amount the property would have realized if sold on the date of valuations in the open market by a willing buyer.

In determining the market value of a property, the following must be considered for purposes of valuing the property:-

- the value of any license, permission or other privilege granted in terms of legislation in relation to the property;
- the value of any immovable improvement on the property that was erected or is being used for purpose which is inconsistent with or in contravention of the permitted use of the property, as if the improvement was erected or is being used for a lawful purpose; and
- The value of the property for a purpose which is inconsistent with or in contravention of the permitted use of the property, as if the property is being used for a lawful purpose.

In determining the market value of a property the following must be disregarded for the purposes of valuing the property:-

- the value of any building or other immovable structure under the surface of the property which is the subject matter of any mining authorization or mining rights defined in the Minerals Act, 1991;
- the value of any equipment or machinery which, in relation to the property concerned, is immovable property, excluding –
  - a lift
  - an escalator
  - an air conditioning plant
  - fire extinguishers
  - a water pump installation for a swimming pool or for irrigations on domestic purposes; and
  - any other equipment or machinery that may be prescribed;
- Any unregistered lease in respect of the property.

In determining the market value of a property used for agricultural purposes, the value of any annual of crops or growing timber on the property that have not yet been harvested as at the date of valuation must be disregarded for purposes of valuing the property.

Where the available market related data is insufficient to determine the market value of public service infrastructure, such public service infrastructure may be valued in accordance with any other method of valuation as may be prescribed.

## **28. DATE OF VALUATION**

For the purposes of a general valuation a municipality must determine a date that may be not more than twelve (12) months before the start of the financial year in which the valuation roll is to be first implemented. The date of valuation in respect of Ubuhebezwe Municipality is **1 July 2012**.

The general valuation must reflect the market values of properties in accordance with market conditions which apply as at the date of the valuation, and in accordance with any other applicable provisions of the present Act.

## **29. VALUATION OF PROPERTY IN SECTIONAL TITLE SCHEMES**

When valuing a property which is subject to a sectional title scheme, the valuer must determine the market value of each sectional title unit in the scheme.

## **30. RIGHT OF APPEAL**

An appeal to an Appeal Board against a decision of the municipal value in terms of the Act may be lodged in the prescribed manner and upon payment of the approved fee with the municipal manager.

### **31. UPDATING OF VALUATION ROLLS**

The municipality must regularly, but at least once a year, update its valuation roll by causing –

- a supplementary valuation roll to be prepared in terms of Section 78 of the Municipal Property Rates Act; or
- The valuation roll is to be amended in terms of Section 79 of the Municipal Property Rates Act.

### **32. REGISTER OF PROPERTIES**

The Municipality must draw up and maintain a register in respect of properties situated within that municipality, consisting of a Part A and a Part B.

**Part A** of the register consists of the current valuation roll of the Municipality, including any supplementary valuation rolls prepared in terms of section 78 of the Municipal Property Rates Act.

**Part B** of the register must specify which properties are subject to:-

- an exemption;
- a rebate on or reduction in the rate;
- a phasing-in of the rate;
- Exclusion referred to in section 17.
